CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

1. Introduction

The National Health Quality Improvement Plan (NHQIP) describes a systematic improvement programme within the context of the national quality framework, building on existing quality improvement initiatives and regulatory requirements to develop a process of independent, external quality evaluation for health establishments to meet the requirements of the NHI.

The Quality Improvement Plan (QIP) establishes the concepts of Quality Learning Centres (QLCs) as a modality of its implementation.

2. Background

The report of the South African Lancet Commission on High Quality Health Systems, 'Confronting the Right to Ethical and Accountable Quality Health Care in South Africa'¹ provides a succinct diagnosis of the health system and together with the National Department of Health developed a detailed quality improvement plan with guidelines and a road map specifying clear objectives to improve the health system. With the move to National Health Insurance (NHI), the plan included both private and public healthcare providers in order to develop best practice.

The major regulatory measure implemented thus far was the establishment of the Office of Health Standards Compliance (OHSC) through the National Health Amendment Act in 2013. This is a body mandated, inter alia, to inspect and certify public and private health establishments as compliant or non-compliant with prescribed norms and standards or, where appropriate, withdraw such certification and make recommendations for intervention by national, provincial or municipal health departments, or by individual health establishments, to ensure compliance with prescribed norms and standards.

3. Purpose

The National Health Quality Improvement Plan aims to establish quality learning centres and develop procedures and training manuals required to roll out the programme. The National Health Quality Improvement Plan must be able to transform existing service delivery challenges into learnings and opportunities for quality improvement and to pull together quality of care initiatives into a coherent 2-year plan.

The NHQIP proposed that the Quality Learning Centers are established in each province to be the focal point of learning and development in the province to ensure that local capacity is developed over time, to support the poorest performing facilities in the province to improve to the required standard. The QLCs must incorporate a regional, district and private hospital, three primary care facilities, including family practitioners/General Practitioners and emergency medical services (EMS), to spread shared learning through the various healthcare sectors.

4. Specific Objectives

- 4.1 To develop quality learning centres to enable the building of local capacity and sustainability of quality improvement across the health system and attainment of regulated norms and standards.
- 4.2 To bring about quality improvement through a variety of tools and approaches within quality learning centres.
- 4.3 Illustrate how the approach taken will ensure sustainable change and inclusion of all stakeholders who will participate in the monitoring process. (communities, hospital boards, clinic committees, organised labour, all health care workers, support staff, doctors, management, patients, and independent professional bodies).

5. Deliverables

Deliverables must include the following:

- 5.1 Presentation of the workplan to the NDoH at the inception of the project.

- 5.2 Establishment of two quality learning centres in each province.
- 5.3 Facilitation and empowerment of the health establishments for conducting baseline assessment at the beginning of the project.
- 5.4 Identification challenges and factors negatively impacting on quality improvement.
- 5.5 Facilitate implementation of quality improvement plans and monitoring thereof.
- 5.6 Demonstrate quality improvement indicating 10% of the health establishment to be ready for accreditation at the end of the project
- 5.7 Use available web-based information system for reporting for analysis of data
- 5.8 Report availed to NDoH monthly during implementation and at the end of the project indicating progressive improvement of health establishments.
- 5.9 The successful bidder (s) must submit all assessment tools reports, data sets, and databases (including all relevant items) to the NDoH after completion of the project.

7. Principles of learning

- a) At all levels, personnel should be trained to understand multi-disciplinary standards, quality improvement methods, quality data collection and analytical systems and to transfer the knowledge and skills.
- b) Dedicated trainees will be identified to receive training and they, in turn, will be coached to train other personnel in quality improvement techniques such that there is sustainability.
- c) Each of the centres will become the centre of quality learning for their part of that province, to disseminate quality improvement skills and establish a province-wide culture of continuous quality improvement.
- d) The centres will be key to rolling out quality improvement methods aimed at achieving compliance with norms and standards.

8. Workplan for quality learning Centre project

8.1 The contract period will be twenty-four months to establish the Quality Learning Centres and roll the project in all provinces as outlined in the project framework.

8.2 The project will comprise two Quality Learning Centres in each province (on average one urban and one rural centre per province) plus two central hospitals (18 QLCs).

8.3 The responsibility for the project vests with the Director General of the NDoH as accounting officer of the Department and the Director: Quality Assurance will be the contact person for the service providers, while the steering committee led by branch the Deputy Director General will be responsible for overseeing the project.

8.4 Provincial project management and launch

The official responsible for Quality Assurance in each province to be part of the training within quality learning centres, be responsible for managing the QLCs in the province, be the contact person for the service provider in the province and will be responsible for the institutionalisation of the programme once it is developed.

- a) A strategic introduction meeting to introduce the project will be held in each province with the officers responsible for quality in the province, the successful service providers and representatives from all the QLCs in the province. (9 meetings each with 100 people)
- b) The first phase will then be implemented at each QLC with a three-day workshop for 90 identified participants from all the institutions included in each QLC in the province. (2 x 9 = 18 three-day workshops)
 - i. For each hospital in each QLC 60 people will be trained, of which 20 people will be identified for intensive training to ensure that they are able to train others, will take part in the baseline assessment.
 - ii. For each clinic and health centre in each QLC 16 people will be trained, of which 8 people will be identified for intensive training and will take part in the baseline assessment.

- iii. For each Family Practitioner practice in each QLC four people will be trained depending on the size of the practice.
 - iv. In the Emergency Medical Service linked to each QLC eight people will be trained, of which four will receive intensive training.
 - v. In each of the two central hospitals 100 people will be trained, of which 20 will receive intensive training (takes cognisance of local context).
- c) The target is therefore total of 3340 people to be trained by the project across all the Quality Learning Centres, of which 1316 will receive intensive training and capacity building to be the champions of the institutionalised permanent programme that will be rolled out across the country.

8.5 The Quality Learning Centres will implement the standards, support development of sustainable quality improvement programmes.

8.6 Once the project has trained enough champions the QLC trainees must host personnel from other facilities to share the learning and the champions will then work with them at their own facilities to put the learning into practice. The service providers must include a module in the training project that assists the QLC to play this catalyst role.

8.7 The rollout and scale up of the institutionalised permanent quality programme will be overseen by the district health teams and the provincial departments of health.

8.8 Monitoring progress of the project will be the responsibility of the Steering Committee within the NDoH.

- a) A performance monitoring and evaluation tool to be used for this purpose must be developed with the service provider/s.
- b) An online database must be used to track the progress of all the quality improvement interventions and the remedial actions taken to ensure compliance with the standards.
- c) This system must link with OHSC and NHI Digital Platform systems.
- d) The NDOH Director: Quality Assurance will report to the DDG who will report to DG and the Management Committee.
