National Departments:

Provincial Departments:

- Eastern Cape;
- Free State;
- Gauteng;
- KwaZulu-Natal;
- Limpopo.
- Mpumalanga;
- Northern Cape;

Other Institutions

### 18. REGISTRATION ON DATABASES OF PARTICIPATING AUTHORITIES

All contracted suppliers must register on the supplier databases of Participating Authorities within 30 days after award of contract.

Failure to meet this requirement will result in inability to process payment for goods.

## 19. POST AWARD PARTICIPATION

Regulation 16A6.6 of the Treasury Regulations for Departments, Trading Entities, Constitutional Entities and Public Entities, issued in terms of the Public Finance Management Act, 1999, (Act 1 of 1999), states that the Accounting Officer/Accounting Authority may, on behalf of a department, constitutional institution or public entity, request to participate in any contract arranged by means of a competitive bidding process by any organ of state, subject to the written approval of such organ of state and the relevant contractors.

## 20. AWARD CONDITIONS

The National Department of Health reserves the right to award contracts to more than one contractor for the same item.

The National Department of Health reserves the right to negotiate prices.

The National Department of Health reserves the right to award the same item as a multiple award to various contractors (two or more) to address high volume requirements, security of supply and product availability.

The following are examples of considerations which may be taken into account when contemplating a multiple award:

- Source of Active Pharmaceutical Ingredient (API) and actual manufacturing site;
- Capacity to meet expected demand as per published estimates in the Excel Bid Response Document;
- Estimated volume to be supplied;
- Risk to public health if the item is not available;
- Past compliance of the bidder with contractual obligations.

In cases where the tender does not achieve the most economically advantageous price, the National Department of Health reserves the right not to award that item.

In the case of medicines for chronic conditions, pack sizes suitable for a 28-day treatment cycle are required. Should a 30-day or other pack size be offered, no conversion factor will be applied. Direct comparisons will be made between the 28-day and other pack sizes during evaluation. Similarly, no conversion factors will be applied in cases where a pack size other than that specified is offered.

The National Department of Health may change treatment protocols and/or product formulations where required, due to emerging clinical evidence, disease profiles, safety or resistance patterns and availability of items registered in terms of the Medicines and Related Substances Act, 1965, (Act 101 of 1965) at the date and time of bid closure. In these circumstances, the National Department of Health reserves the right to cancel the contract for an item, or adjust the quantity awarded based on expected changes in projected demand. The Department of Health will notify the contracted supplier within a reasonable time of the expected change. However, in cases where patient safety is a concern, these changes may be implemented with immediate effect.

## 20.1 SPLIT AND MULTIPLE AWARDS

The National Department of Health reserves the right to issue split or multiple awards, where necessary, to ensure security of supply.

The following will be taken into consideration when contemplating a split award:

- Source of API and manufacturing site.
- Capacity to meet expected demand as per published estimates in the Excel Bid Response Document.
- Estimated volume to be supplied.
- Risk to public health if the item is not available.
- Past compliance of the bidder with contractual obligations.

Two-way split awards will be made in accordance with the following schedule based on the points scored:

Category	Difference between points scored	Recommended percentage split
A	Equal points	50/50
B	< 5 points	60/40
C	>5-10 points	70/30
D	>10-20 points	80/20
E	>20 points	90/10

Where a split for more than 2 suppliers is contemplated, the following formula may be used to allocate volumes for award:

- For a three way split: Supplier share = 33.3% + (supplier score - mean score) x 2.3%
- For a four way split: Supplier share = 25% + (supplier score - mean score) x 2%

## 20.2 THERAPEUTIC CLASS AWARDS

The Policy for Classifying Medicines into Therapeutic Classes for Purposes of Therapeutic Interchange defines a therapeutic class as a group of medicines which have active ingredients with comparable therapeutic effects. Medicines in a therapeutic class may or may not belong to the same pharmacological class, may differ in chemistry or pharmacokinetic properties, and may possess different mechanisms of action, result in different adverse reactions, have different toxicity and drug interaction profiles. In most cases, these medicines have close similarity in efficacy and safety profiles, when administered in equipotent doses for a specific indication.

The ministerially appointed National Essential Medicines List Committee (NEMLC) formulates and revises the Standard Treatment Guidelines (STGs) and Essential Medicines List (EML). Therapeutic classes are mentioned in the “Medicine treatment” section of the national STGs which provides a class of medicines followed by an example such as, HMGCoA reductase inhibitors (Statins) e.g. simvastatin. These therapeutic classes have been designated where none of the members of the class offer any significant benefit over member of the class for a specific indication. The NEMLC will designate therapeutic classes for a condition, where appropriate.

Such therapeutic classes may be used during the contracting process to achieve the most economically advantageous contract, offer the market the largest volume and increase the number of competitors, thereby offering the opportunity for cost efficiencies by stimulating robust competition.

**A single member of the class may be awarded.**

Therapeutic class description	Members of the therapeutic class
Aromatase Inhibitors	Anastrozole 1mg tablet, 28 tablets <b>vs</b> Letrozole 2.5mg tablet, 28 tablets
Gonadotrophin-Releasing Hormone Analogues	Buserelin 9,9mg, injectable depot implant, single disposable applicator <b>vs</b> Goserelin 10.8mg injection

Therapeutic class description	Members of the therapeutic class
Serotonin (5HT3) Antagonists - Parenteral	Granisetron 1mg injection <b>vs</b> Ondansetron 8mg injection
Serotonin (5HT3) Antagonists - Oral	Granisetron 1mg tablet, 10 tablets <b>vs</b> Ondansetron 8mg tablet, 10 tablets
Bisphosphonates	Ibandronic acid 6mg injection <b>vs</b> Zoledronic Acid 4mg injection

## 21. NEGOTIATIONS

The National Department of Health reserves the right to negotiate with the bidders prior to award and with the successful bidder(s) post award.

## 22. NON-COMMITMENT

The National Department of Health reserves the right not to award, to award in part, or in full.

The right is also reserved to withdraw or amend any of the bid conditions, by notice, in writing to all bidders prior to closing of the bid and post award.

In the event that an incorrect award has been made, the National Department of Health reserves the right to remedy the matter in any manner it may deem fit.

## 23. PRICE REVIEW

The National Department of Health envisages three types of price review processes for the duration of this contract:

- A routine adjustment to mitigate foreign exchange fluctuations;
- An exceptional adjustment to mitigate significant short-term foreign exchange fluctuations; and
- A systematic review of prices for comparable products available in the international market place.

## **23.1 ELIGIBILITY RELATING TO RATE OF EXCHANGE ADJUSTMENTS**

Eligibility for price adjustments relating to foreign exchange risk depends on:

The submission of a complete price breakdown per instructions below for all relevant products; and  
Assessment of the rationality of this price breakdown by the National Department of Health.

### **23.1.1 INSTRUCTIONS FOR PRICE BREAKDOWN**

- The price breakdown must be completed on the pricing schedule on the item level questionnaire. The delivered price must be divided across five components:
  - Active Pharmaceutical Ingredients (API);
  - Formulation;
  - Packaging;
  - Logistics (this includes transportation, warehousing and distribution);
  - Gross margin (remaining portion).
- The sum of these categories must be equal to 100% of the delivered price for the line item.
- The local + imported portions of the first three components must add up to 100% within each component (e.g. Portion of API attributable to local + Portion of API attributable to import = 100% of specific API component).
- VAT must be apportioned equally across all components and not regarded as a separate component.
- Labour must be apportioned appropriately across the relevant components.
- Breakdown must be in percentage format to the closest whole percentage (e.g. 20%).
- The National Department of Health reserves the right to engage with bidders to verify any of the components of the bid price, which may include audit of invoices and related documentation.

## **23.2 PRICE ADJUSTMENTS RELATING TO FOREIGN EXCHANGE RISK**

Only the portion of the bid price facing foreign exchange risk will be adjusted. This portion is determined by the price breakdown on the signed bid submission.

Adjustments are always calculated using the original awarded contracted price as the base.

Price adjustments relating to foreign exchange will be based on the percentage change between the relevant base average rate of exchange (RoE) and an adjustment average RoE.

Rates are sourced from the Reserve Bank ([www.resbank.co.za](http://www.resbank.co.za)).

Eligibility for favourable Contractual Price Adjustments may be withdrawn in light of evidence of poor compliance with contractual obligations.

**Base average RoE for this tender will be as follows, per currency:**

<b>Currency</b>	<b>Base Average Rates of Exchange Average for the period 1 March 2019 to 31 August 2019</b>
Rand per US Dollar	<b>14.45</b>
Rand per Br Pound	<b>18.37</b>
Rand per Euro	<b>16.22</b>
Rand per Yuan Renminbi	<b>2.11</b>
Rand per Indian Rupee	<b>0.21</b>

Should the bidder make use of any currency not mentioned above, the bidder must stipulate this clearly and submit the calculated average RoE for the period 1 March 2019 to 31 August 2019 using the South African Reserve Bank published rates for the specific currency.

### **23.3 APPLICATION FOR CONTRACTUAL PRICE ADJUSTMENTS**

Scanned copies of signed applications for price adjustments must be received by the National Department of Health prior to the submission dates detailed in the tables below.

Where no application for an adjustment relating to foreign exchange has been received and such an adjustment would be favourable to the Department, this will be implemented automatically.

Foreign exchange adjustments may never result in a price exceeding the current Single Exit Price, ex Logistics.

### 23.4 ROUTINE PRICE ADJUSTMENTS

Schedules for routine price reviews, and periods for calculating adjustment average RoE are detailed in the table below:

Review	Period for calculating adjustment average RoE	Submission of request for price review to reach the office by	Date from which adjusted prices will become effective
1	01 July 2020 - 31 December 2020	03 January 2021	01 February 2021
2	01 January 2021 - 30 June 2021	03 July 2021	01 August 2021
3	01 July 2021 - 31 December 2021	03 January 2022	01 February 2022

### 23.5 EXCEPTIONAL PRICE ADJUSTMENTS

Suppliers may request exceptional price adjustments according to the schedule in the table below. These will be activated if the absolute change between the base RoE and the three month retrospective average RoE indicated in the table below fluctuates by more than 10%.

Review	Period for calculating adjustment average RoE	Submission of request for price review to reach the office by	Date from which adjusted prices will become effective
0.1	01 July 2020 - 30 September 2020	03 October 2020	01 November 2020
1.1	01 January 2021 - 31 March 2021	03 April 2021	01 May 2021
2.1	01 July 2021 - 30 September 2021	03 October 2021	01 November 2021
3.1	01 January 2022 - 29 February 2022	03 April 2022	01 May 2022

Suppliers who received exceptional adjustments will receive routine adjustments based on the preceding three months, rather than the usual six month historical average exchange rate. The periods for calculating adjustment average RoE in these instances are detailed in the table below:

---

Review	Period for calculating adjustment average RoE post exceptional adjustment	Submission of request for price review to reach the office by	Date from which adjusted prices will become effective
1	01 October 2020 - 31 December 2020	03 January 2021	01 February 2021
2	01 April 2021 - 30 June 2021	03 July 2021	01 August 2021
3	01 October 2021 - 31 December 2021	03 January 2022	01 February 2022

### **23.6 PRICE ADJUSTMENTS BASED ON A SYSTEMATIC REVIEW**

The National Department of Health reserves the right to review international prices to identify lowest comparable global prices.

Where this review identifies any prices that are lower than contract prices the National Department of Health will enter into price negotiations with the contracted supplier.

Where the outcome of this negotiation is deemed unfavourable, the National Department of Health reserves the right to terminate the award for the item in question.

### **24. QUALITY**

Products must conform to the conditions of registration of the product in terms of the Medicines and Related Substances Act, 1965 (Act 101 of 1965) for the full duration of this contract.

### **25. DELIVERY AND QUANTITIES**

#### **25.1 DELIVERY BASIS**

Firm lead times for delivery must be quoted for the duration of the contract period.

Transit and storage conditions applicable to the relevant products must be adhered to.

The initial lead time as proposed in the bid response document will be calculated from date of award of the contract and NOT the date of placement of the first order. This period may not exceed 75 calendar days from the date of award.

Lead time within the contract period is defined as the time from submission of order to supplier to time of receipt by the Department, as confirmed by the Proof of Delivery document. This lead time may not exceed 14 calendar days.

Failure to comply with the contractual lead time will result in penalties being enforced as per paragraph 21 and 22 of the General Conditions of Contract.

## **25.2 QUANTITIES**

The quantities reflected in the bid are estimated quantities and no guarantee is given or implied as to the actual quantity which will be procured during the contract period. Fluctuations in monthly demand may occur. Proposed minimum order quantities (MOQs) should facilitate delivery directly to health establishments. The National Department of Health reserves the right to negotiate MOQs where necessary. Where consensus regarding MOQs cannot be reached, the bid may not be awarded.

Suppliers are required to maintain sufficient buffer stock to meet at least two-months demand for all items, aligned with the needs of Participating Authorities.
