THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1. PILLARS OF THE PROGRAMME

1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US$ 10 million or other currency equivalent to US$ 10 million will have a NIP obligation. This threshold of US$ 10 million can be reached as follows:

a) Any single contract with imported content exceeding US$10 million.
b) Multiple contracts for the same goods, works or services each with imported content exceeding US$3 million awarded to one seller over a 2 year period which in total exceeds US$10 million.
c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US$10 million.
d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US$10 million.

1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30% of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.

1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of R10 million (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

SBD5

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid/contract number.
- Description of the goods works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. for further details about the programme, contact Ms R Muthan on telephone (012) 394 1288, Mobile (066) 301 2051 or e-mail at amuthan@thedtic.gov.za .

4 PROCESS TO SATISFY THE NIP OBLIGATION

4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:

a) the contractor and the DTI will determine the NIP obligation;
b) the contractor and the DTI will sign the NIP obligation agreement;
c) the contractor will submit a performance guarantee to the DTI;
d) the contractor will submit a business concept for consideration and approval by the DTI;
e) upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
f) the contractor will implement the business plans; and
g) the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

In terms of regulation 6 of the Preferential Procurement Regulations pertaining to the Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000), responsive bids will be adjudicated by the NDoH on the 90/10-preference point system in terms of which points are awarded to bidders on the basis of:

- The bid price (maximum 90 points)
- B-BBEE status level of contributor (maximum 10 points)
- The following formula will be used to calculate the points for price:

90/10

$$Ps = 90\left(1 - \frac{Pt - P\min}{P\min}\right)$$

Where:

Ps = Points scored for comparative price of bid under consideration

Pt = Comparative price of bid under consideration

Pmin = Comparative price of lowest acceptable bid

5.2 POINTS AWARDED FOR B-BBEE STATUS LEVEL OF CONTRIBUTION

In terms of Regulation 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded to a bidder for attaining the B-BBEE status level of contribution in accordance with the table below:

B-BBEE Status Level of Contributor	Number of points (90/10 system)

- Sworn Affidavits submitted by EME's and QSE will strictly be evaluated according to the guidelines as prescribed by the B-BBEE Commission.

The National Department of Health may, before a bid is adjudicated or at any time, require a bidder to substantiate claims it has made with regard to preference claimed.
- A contract may, on reasonable and justifiable grounds, be awarded to a bid that did not score the highest number of points.

Each item on tender will be a single award to ensure consistency in the programme and accurate vaccine estimation, contract management, furthermore it is essential to ensure the safe administration of vaccines. A single item award will maximise available cold chain capacity, facilitate a smooth tender transition to new vaccines while reducing programme cost and improving programme efficiencies.

In the event two or more equivalent vaccines are compared with different immunisation schedules e.g. a 2 dose schedule vs a 3 dose schedule. The cost per schedule will be considered, rather than the cost per dose. If vaccines with similar immunisation schedules but different vial presentation (single dose vs. multi-dose) are considered the cost per dose will be used.

20.4.1 Items on EPI schedule – no expected change.

The items in the table below are included in the current Expanded Programme on Immunisation (EPI) schedule. There are no expected changes to these items on the schedule. The target population for the EPI programme is the population under 1 year, according to StatsSA mid-year estimates. The formula for calculating the annual estimate considers various assumptions which is included in the table below.

Product	Expected coverage	Number of doses per Schedule	Expected wastage	Buffer	Programme considerations
Vaccine, BCG (Bacillus Clamette-Guérin), containing 0.75 mg per 1 ml of live attenuated *Mycobacterium Bovis*, multi dose of at least **20 doses** vial plus diluent if applicable. 20.4.2 Items on EPI schedule – possible changes

Changes to the EPI schedule is expected for the following items based on affordability. These items may be awarded in reduced volumes, or not awarded based on the availability and affordability of the proposed EPI schedule changes.

a) Rubella-containing vaccine introduction

The EPI schedule will change with the introduction of the rubella-containing vaccine. This introduction will reduce the volume of measles vaccine usually used in the EPI programme. The current EPI schedule for measles vaccine is displayed in the table below:

Product	Expected coverage	Number of doses per Schedule	Expected wastage	Buffer	Programme considerations
Vaccine, measles, containing 1000 $CCID^{50}$ of live attenuated measles virus per 0.5ml after reconstitution, multi dose of at least **10 doses** vial plus diluent. For subcutaneous administration. With Vaccine Vial Monitor. (EPI - 6m&12m)	100% population under 1y	2	45% in a 10 dose vial presentation	15%	• Based on the current EPI schedule • EPI schedule 1 dose at 6 months and 12 months • Volumes based on a 10 dose vial presentation

The current EPI schedule for measles will change subject to the availability and affordability of the rubella-containing vaccine. Rubella-containing vaccine introduction will half the expected annual consumption of the measles vaccine due to the change in the EPI schedule. The introduction of either a single dose or 10 dose vial presentation is possible and therefore volumes for both presentation (and the specific assumptions) is provided, however only one vaccine presentation will be awarded and introduced into the immunisation programme. The options are highlighted below:

Option 1:

Product	Expected coverage	Number of doses per Schedule	Expected wastage	Buffer	Programme considerations
Vaccine, measles, containing 1000 $CCID^{50}$ of live attenuated measles virus per 0.5ml after reconstitution, multi dose of at least **10 doses** vial plus diluent. For subcutaneous administration. With Vaccine Vial Monitor. (EPI-6m only)	100% population under 1y	1	45% in a 10 dose vial presentation	15%	• Based on the new EPI schedule • EPI schedule include 1 dose at 6 months • **Volume based on a 10 dose vial**
Vaccine, containing AT LEAST THE FOLLOWING 1000 CCID50 of live attenuated measles and 1000 CCID50 of live attenuated rubella virus per 0.5ml. **10 dose** vial with diluent if reconstitution is required. For subcutaneous administration. WITH Vaccine Vial monitor	100% population under 1y	2	45% in a 10 dose vial presentation	15%	• Based on the new EPI schedule • EPI schedule include 1 dose at 12 months and 9 years of age • **Volume based on a 10 dose vial**

The volumes of the measles vaccine are subject to rubella-containing vaccine introduction.

b) Introduction of Tetanus, reduced diphtheria and acellular pertussis vaccine (TdaP) at 6y, 12y and in pregnancy

The EPI schedule will change with the introduction of TdaP vaccine. This vaccine introduction will impact both the Tetanus Toxoid vaccine (TT) and the Tetanus, reduced Diphtheria vaccines (Td). The current EPI schedule for the TT and Td vaccines are as follows:

Product	Expected coverage	Number of doses per Schedule	Expected wastage	Buffer	Programme considerations
Vaccine, tetanus toxoid, containing 40IU of purified tetanus toxoid per 0.5ml, **10 dose vial**. For intramuscular administration. (A&E, Maternal)	70% of pregnant women + Historic consumption in A&E	~3 (Pregnancy)	25% in a 10 dose vial presentation	15%	• Based on the current EPI schedule • Volume based on an average of 3 doses provided during pregnancy according to EPI schedule. Historic data of A&E consumption added. • Volumes based on a 10 dose vial presentation
Vaccine, combined tetanus and diphtheria, containing 2IU of Purified diphtheria toxoid and 20IU Purified tetanus toxoid per 0.5ml, **10 dose vial**. For intramuscular administration.	70% of the population 6 year, 10 year and 12 year olds	3	25% in a 10 dose vial presentation	15%	• Based on current EPI and school based vaccination programme • Currently providing routine immunisation at 6y and 12y, with a school based campaign at 10 y. • Volumes based on a 10 dose vial presentation

The TdaP vaccine will be introduced based on affordability and availability of the vaccine. This vaccine introduction will change the EPI schedule, where Td vaccine will be replaced with TdaP, and therefore will no longer be provided. Furthermore, the introduction of the TdaP vaccine will reduce the awarded volume of TT vaccine, as it will only be used during treatment of trauma as per the Standard Treatment Guidelines.

With the introduction of the TdaP vaccine the new EPI schedule is as follows:

Product	Expected coverage	Number of doses per Schedule	Expected wastage	Buffer	Programme considerations
Vaccine, tetanus toxoid, containing 40IU of purified tetanus toxoid per 0.5ml, **10 dose vial**. For intramuscular administration. (A&E, Maternal)	Historic consumption data to treat trauma		25% wastage in a 10 dose vial presentation	15%	• Item will be used for treatment of trauma only as applicable based on the standard treatment guidelines.
Vaccine, combined tetanus toxoid, reduced diphtheria toxoid and acellular pertussis (adsorbed) per 0.5ml dose, single or multi-dose vial or prefilled syringe presentation. For intramuscular administration.	70% of the target population	~4	5% in a 1 dose vial presentation	15%	• Based on the new EPI schedule • EPI schedule include 1 dose during each pregnancy, 1 dose at 6 years and 12 years as part of routine immunisation and 1 dose as part of the school based campaign at 9 years

21 NEGOTIATIONS

The National Department of Health reserves the right to negotiate prices, Minimum Order Quantities and volumes to be supplied with the bidders prior to award and with the successful bidder(s) post award.

22. NON-COMMITMENT

The National Department of Health reserves the right not to award, to award in part, or in full.

The right is also reserved to withdraw or amend any of the bid conditions, by notice, in writing to all bidders prior to closing of the bid and post award

In the event that an incorrect award has been made, the National Department of Health reserves the right to remedy the matter in any manner it may deem fit.

23. PRICE REVIEW

The National Department of Health envisages three types of price review processes for the duration of this contract:

- A routine adjustment to mitigate foreign exchange fluctuations;
- An exceptional adjustment to mitigate significant short-term foreign exchange fluctuations; and
- A systematic review of prices for comparable products available in the international market place.

23.1 ELIGIBILITY RELATING TO RATE OF EXCHANGE ADJUSTMENTS

Eligibility for price adjustments relating to foreign exchange risk depends on:

The submission of a complete price breakdown per instructions below for all relevant products; and

Assessment of the rationality of this price breakdown by the National Department of Health.

23.1.1 INSTRUCTIONS FOR PRICE BREAKDOWN

- The price breakdown must be completed on the signed bid response document as well as the electronic version. The delivered price must be divided across five components
  - Active Pharmaceutical Ingredients (API);
  - Formulation;
  - Packaging;
  - Logistics (this includes transportation, warehousing and distribution);
  - Gross margin (remaining portion).
- The sum of these categories must be equal to 100% of the delivered price for the line item.
- The local + imported portions of the first three components must add up to 100% within each component (e.g. Portion of API attributable to local + Portion of API attributable to import = 100% of specific API component).
- VAT must be apportioned equally across all components and not regarded as a separate component.
- Labour must be apportioned appropriately across the relevant components.
- Breakdown must be in percentage format to the closest whole percentage (e.g. 20%).
- The National Department of Health reserves the right to engage with bidders to verify any of the components of the bid price, which may include audit of invoices and related documentation.

23.2 PRICE ADJUSTMENTS RELATING TO FOREIGN EXCHANGE RISK

Only the portion of the bid price facing foreign exchange risk will be adjusted. This portion is determined by the price breakdown on the signed bid submission.

Adjustments are always calculated using the original awarded contracted price as the base.

Price adjustments relating to foreign exchange will be based on the percentage change between the relevant base average rate of exchange (RoE) and an adjustment average RoE.

Rates are sourced from the Reserve Bank (www.resbank.co.za).

Eligibility for favourable Contractual Price Adjustments may be withdrawn in light of evidence of poor compliance with contractual obligations.

Base average RoE for this tender will be as follows, per currency:

Currency	Base Average Rates of Exchange Average for the period 1 January 2022 to 30 June 2022
Rand per US Dollar	**R15.40**
Rand per Br Pound	**R20.01**
Rand per Euro	**R16.85**
Rand per Danish Krone	**R2.26**
Rand per Yuan Renminbi	**R2.38**
Rand per Indian Rupee	**R0.20**

Should the bidder make use of any currency not mentioned above, the bidder must stipulate this clearly and submit the calculated average RoE for the period 1 January 2022 to 30 June 2022 using the South African Reserve Bank published rates for the specific currency.

23.3 APPLICATION FOR CONTRACTUAL PRICE ADJUSTMENTS

Scanned copies of signed applications for price adjustments must be received by the National Department of Health prior to the submission dates detailed in the tables below.

Where no application for an adjustment relating to foreign exchange has been received and such an adjustment would be favourable to the Department, this will be implemented automatically.

Foreign exchange adjustments may never result in a price exceeding the current Single Exit Price, ex Logistics.

23.4 ROUTINE PRICE ADJUSTMENTS

Schedules for routine price reviews, and periods for calculating adjustment average RoE are detailed in the table below:

Review	Period for calculating adjustment average RoE	Submission of request for price review to reach the office by	Date from which adjusted prices will become effective
1	01 January 2024 – 30 June 2024	03 July 2024	01 August 2024
2	01 July 2024 – 31 December 2024	03 January 2025	01 February 2025

5	01 January 2026 – 30 June 2026	03 July 2026	01 August 2026

23.5 EXCEPTIONAL PRICE ADJUSTMENTS

Suppliers may request exceptional price adjustments according to the schedule in the table below. These will be activated if the absolute change between the base RoE and the three month retrospective average RoE indicated in the table below fluctuates by more than 10%.

Review	Period for calculating adjustment average RoE	Submission of request for price review to reach the office by	Date from which adjusted prices will become effective

5.1	01 July 2026 – 30 September 2026	03 October 2026	01 November 2026

Suppliers who received exceptional adjustments will receive routine adjustments based on the preceding three months, rather than the usual six month historical average exchange rate. The periods for calculating adjustment average RoE in these instances are detailed in the table below:

Review	Period for calculating adjustment average RoE post exceptional adjustment	Submission of request for price review to reach the office by	Date from which adjusted prices will become effective

23.6 PRICE ADJUSTMENTS BASED ON A SYSTEMATIC REVIEW

Where this review identifies any prices that are lower than contract prices the National Department of Health will enter into price negotiations with the contracted supplier.

Where the outcome of this negotiation is deemed unfavourable, the National Department of Health reserves the right to terminate the award for the item in question.

Failure to comply with the contractual lead time will result in penalties being enforced as per paragraph 21 and 22 of the General Conditions of Contract.

25.2 QUANTITIES

The quantities reflected in the bid are estimated quantities and no guarantee is given or implied as to the actual quantity which will be procured during the contract period. Fluctuations in monthly demand may occur.

Proposed minimum order quantities (MOQs) should facilitate delivery directly to health establishments. The National Department of Health reserves the right to negotiate MOQs where necessary. Where consensus regarding MOQs cannot be reached, the bid may not be awarded.

Suppliers are required to maintain sufficient buffer stock to meet at least two-months demand for all items, aligned with the needs of Participating Authorities.
