THE SPECIFICATIONS: TRANSPORTATION OF CARDIO-RESPIRATORY ORGANS (HEARTS AND LUNGS)

1. BACKGROUND

The Occupational Diseases in Mines and Works Act (78 of 1973) makes provision for the pathology examination of the cardio-respiratory organs of deceased persons who are or were employed at controlled mines and works, regardless of the clinical cause of death. The Pathology division, of the National Institute for Occupational Health (National Health Laboratory Services) in Constitutional Hill, Johannesburg undertakes these examinations on behalf of the Medical Bureau for Occupational Diseases (MBOD). The organs are removed, under the supervision of a medical practitioner, at a facility close to where the mineworker or ex-mineworker died and are placed in formalin in a red bucket. The removals may be done at government facilities or private mortuaries. These service providers then arrange for the collection of the red buckets containing the organs which are sent to the National Institute for Occupational Health (NIOH) in Johannesburg.

3. DELIVERABLES

The service provider will be required to transport the cardio-respiratory organs (hearts and lungs) removed from deceased current and ex-mineworkers, using the buckets containing formalin and documents from service providers in South Africa, and neighbouring countries. Delivery time for consignments between NIOH and Service providers is between 24 and 72 hours. There is a minimum likelihood of pathogens being present in the specimens being transported in the consignment and are therefore "Exempt Human Specimens" in the terms of the National Road Traffic Regulations 1996-chapter VIII, Transport of Dangerous Goods and Substances by Road and regulations and standards framed there under. Therefore, the specimens are not subject to the transportation requirements of dangerous goods. A letter from a medical practitioner to this effect will be supplied to the successful bidder. The National Department of Health will have no direct legal commitment with the subcontractor(s) and as such, the contractor retains full liability towards the department for their performance. The bidder shall provide the number and location of their distribution facilities, and they should indicate how they would effectively meet the geographic presence requirements on time, in terms of the bid conditions

4. CONTRACT PERIOD

The contract will be for 12 months from the signing of the service level agreement (SLA).

5. COSTING MODEL

Original invoices accompanied by proof of deliveries must be delivered monthly to the National Institute for Occupational Health (NIOH). The contractor's payment will occur once an invoice is received from the contractor.

The invoice must always contain the following information:

- a) Price per specific route (from anywhere in South Africa and neighbouring countries to Johannesburg (NIOH))
- b) Actual weight of the parcel
- c) Complete breakdown of costs
- d) Total Costs

6. PRICING

A price must be quoted per two-kilogram (2kg) unit as per the pricing schedule. For each additional kilogram required, the user will be remunerated at fifty percent (50%) of the original bid price per (2kg). Failure to comply with this will invalidate such a bid.

7. Please find the Illustration below

Bid per 2kg	Additional 1 kg at 50% of the bid price
R20.00	R10.00

Bidders must submit one final delivered price inclusive of all costs such as transport, labour, packaging, and insurance costs. Failure to submit one final delivered price will invalidate the bid. Bidders must also quote from any location within South Africa and neighbouring countries to Johannesburg (NIOH).

NB: Bidders are specifically cautioned not to quote insurance costs or fuel surcharges separate from the final delivery price because it will result in the invalidation of their bids.
